

Company Hospital Lists

Company Hospital Lists

With Aviva it's reassuring to know that not only will you have access to top quality medical care, but that you can also choose the hospital that is most convenient for you and your family from the relevant list for your policy.

Our list details over 300 hospitals across the UK, giving you access to hospitals which meet high standards for quality of care and offer a comprehensive range of treatments. Each hospital list is colour coded.

Key Hospital List

This list indicates the private and NHS hospitals most frequently used by people with medical insurance. Many of the NHS hospitals listed have dedicated private patient units. Please check the facilities that will be made available to you. In addition to the hospitals shown on this list, your policy also gives you access to any NHS pay-bed in the country. Altogether this will give you access to around 800 hospitals countrywide.

If **you** use a **Hospital** that is not either

- an NHS pay-bed; or
 - included on **the Key hospital** list,
- we** will only pay **Hospital** charges for that **Treatment** up to:
- £200 for each admission for **Day-patient Treatment** or
 - £250 per night for **In-patient Treatment**.

Hospital charges include accommodation and nursing costs, but also any other charge made by any **Hospital**, facility or service provider if it is related to **your Day-patient** or **In-patient Treatment**. **Specialists'** fees will be covered according to **our** fee guidelines for **Specialists**.

Extended Hospital List

This list includes all the hospitals on the Key list plus a number of other private hospitals.

If **you** use a **Hospital** that is not either

- an NHS pay-bed; or
 - included on **the Extended hospital** list,
- we** will only pay **Hospital** charges for that **Treatment** up to:
- £200 for each admission for **Day-patient Treatment** or
 - £250 per night for **In-patient Treatment**.

Hospital charges include accommodation and nursing costs, but also any other charge made by any **Hospital**, facility or service provider if it is related to **your Day-patient** or **In-patient Treatment**. **Specialists'** fees will be covered according to our fee guidelines for **Specialists**.

Trust Care Hospital List (not available for groups of 50+)

The hospitals listed offer dedicated private patient units with comfortable accommodation, normally including a single room with en suite bathroom facilities.

Trust Care Approved Hospitals are sometimes single-specialty hospitals. For example they may offer only cancer treatment or only cardiology. If you choose the Trust Care list, please check to ensure that as well as there being a hospital local to you, it is one which will be able to offer treatment for a range of conditions.

- S** indicates those hospitals on the Trust Care List of Approved Hospitals which are single specialty hospitals.

Out-patient Treatment

If you require out-patient consultations, tests or treatment covered by the policy, and they are not available at a Trust Care hospital, you are not restricted by the Trust Care List and may use any private hospital or consulting room agreed with our Customer Service Team.

In addition to the hospitals on the Trust Care List you can also use any other NHS hospital agreed in advance with us for in-patient and day-patient treatment. However, please note that these hospitals may not have dedicated private patient facilities, and may not be able to offer single or en suite accommodation, prompt admission or direct settlement of accounts. It is recommended that you confirm with your Specialist prior to admission what standard of facilities are likely to be available to you at non-listed hospitals.

Fair+Square Hospital List

A network of hospitals from some of the largest private hospital providers in the country.

Cover is not available at any other hospital (including NHS pay-beds) unless your intended eligible treatment is not available at our range of Fair+Square Hospitals. In this event we will nominate another hospital for that treatment.

Signature Hospital List

For those companies based in Scotland or Northern Ireland, the hospitals available for treatment are the private hospitals with whom we have agreed direct settlement of accounts.

If **you** use a **Hospital** that is not either

- an NHS pay-bed; or
 - included on **the Signature hospital list**,
- we will only pay **Hospital** charges for that **Treatment** up to:
- £200 for each admission for **Day-patient Treatment** or
 - £250 per night for **In-patient Treatment**.

Hospital charges include accommodation and nursing costs, but also any other charge made by any **Hospital**, facility or service provider if it is related to **your Day-patient** or **In-patient Treatment**. **Specialists'** fees will be covered according to our fee guidelines for **Specialists**.

In addition to these private hospital you are also covered to use any NHS pay-bed in Scotland or Northern Ireland.

Information which applies to all lists

Direct Settlement of Accounts

Most hospitals on these lists will settle charges for treatment direct with us.

You should check the bill on leaving the hospital, sign it and then the hospital will forward it to us for payment. Sometimes you might be sent the bills first. All you need to do in these cases is forward them to us with a fully completed claim form (if one has been requested) or with details of your full name, address and policy number. We will then pay the provider direct for eligible treatment costs. Please check billing arrangements with the hospital prior to undertaking any treatment.

Out-patient Accounts

Although Aviva will settle eligible out-patient treatment charges direct, some hospitals may expect you to pay the bills when you leave. In such cases you should ensure that you get receipts when you pay, which you should then send to Aviva with a fully completed claim form (if one has been requested) or with details of your full name, address and policy number. We will then reimburse you for all eligible treatment costs.

In-patient and Day-patient Accommodation

Many of the hospitals on these lists will normally provide private en suite facilities to Aviva members. It is likely that variations will exist with respect to the size and quality of these rooms from hospital to hospital.

Many hospitals, both private and NHS sometimes prefer to accommodate day-patients on a small ward rather than a single room. Please check with your Specialist or the hospital the type of accommodation you can expect, prior to admission.

Sound Advice

Not all of the private hospitals listed are able to admit children under the age of three for private treatment, although some NHS hospitals are able to do so. Please contact your Group Administrator if you have any queries about cover for your children on your company scheme.

Sound Advice

Our hospital lists are regularly updated. Before seeking any hospital treatment please contact our Customer Service Team on the telephone number shown on your Membership Card. Our staff can advise you of any changes.

Sound Advice

You should always telephone us prior to making a claim, quoting the policy number and providing details of your condition, the name and address of your Specialist, the place and dates of any proposed consultations and treatment, and whether you are to be admitted as an in-patient, day-patient or out-patient.

Sound Advice

We strongly recommend that you take this list with you when you go to see your GP. If they need to refer you to a Specialist, show them the hospital list applicable to your scheme to ensure that they refer you to a Specialist who can admit you to an eligible hospital.
